

## Greensboro, NC - Bingham Park Remediation Project

<https://www.greensboro-nc.gov/departments/parks-recreation/about-us/park-planning-development/parks/bingham-park-remediation-project>

### Greensboro Council voted for:

1. A containment and cover system, and stream restoration at Bingham Park, for
  - o Area #1 & Area #2 (the park portion of the project) and
2. A full remediation at the former Hampton School site across the street from the park (where a park will be developed on a portion of that land).
  - o Area #3 & Area #4, across the street

**The cost is estimated at \$12.4 million / Total funding available: \$18.05M**

The City will authorize allocating \$10 million of the funds received for remediation from State House Bill 259 to support this project.

\$7 million is available from the NC Department of Environmental Quality, and \$1.05 million from a Federal Appropriations Bill.

### Bingham Park, Areas 1 - 4

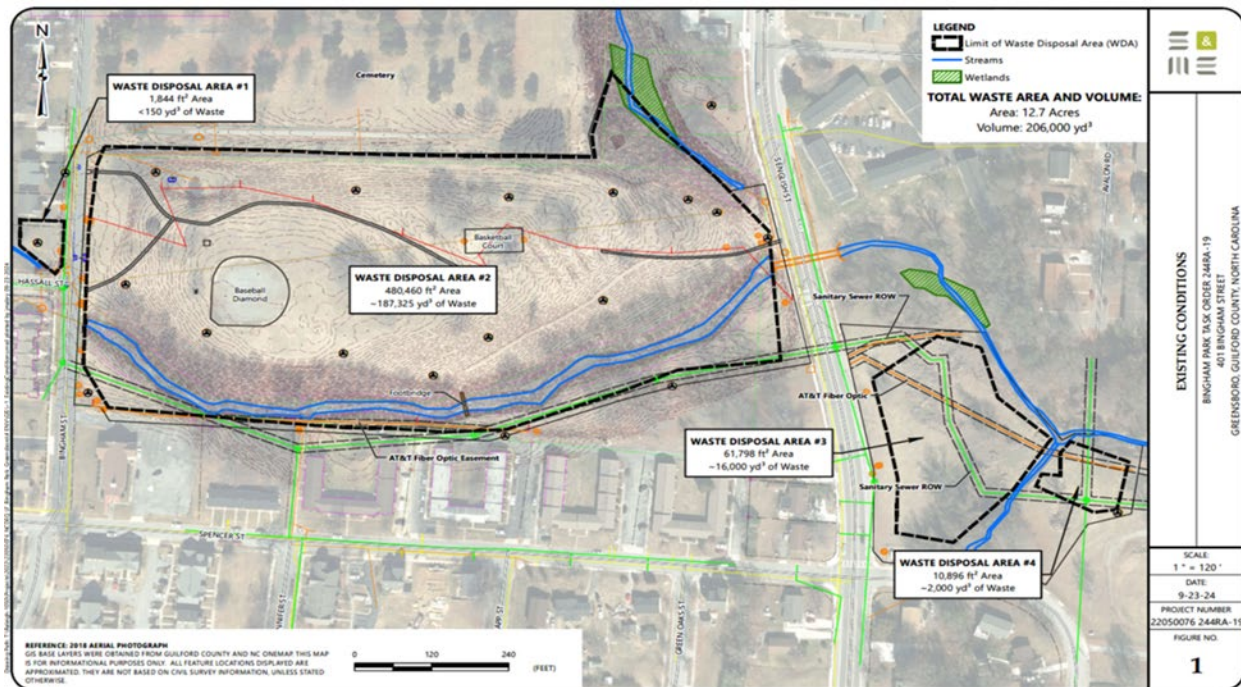

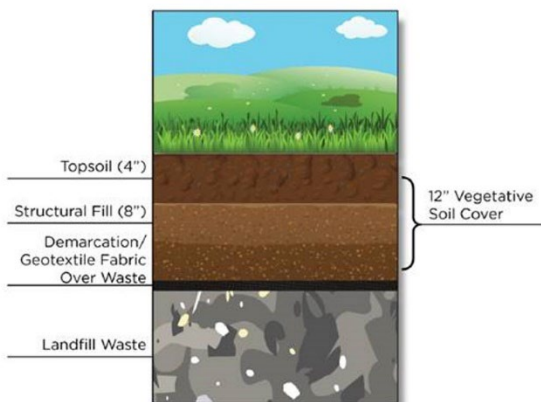

Illustration of Cap & Cover Concept:

Other NC sites that have used a similar concept:

Central Park, Winston Salem

Dorothea Dix Park, Raleigh
