

Northgate Park Neighborhood Association Board Policy Addendum

The following are policies governing NPNA behavior that are not included in the bylaws:

Food Truck Rodeo attendance by Organizations

1. NPNA will authorize a committee or individual(s) (“Approvers”) to approve and supervise the presence of external organizations and businesses at any NPNA Food Truck Rodeo (FTR). Preapproved or prescheduled vendors, participants, entertainment designees, and NPNA representatives (e.g., membership table) are not considered external organizations.
2. External organizations may have a presence at Food Truck Rodeos only if they are approved in advance by the Approvers, who will adhere to and enforce the following guidelines:
3. Organizations that are allowed a presence will have an educational, non-profit character, such as those promoting or informing about health, safety, social, educational, and/or civic issues.
4. There will be a maximum of three such organizations at any one FTR, unless otherwise authorized by the NPNA Board. Some such organizations may choose to employ a table and/or canopy, or similar structure. Only one table is allowed per organization. Such activity and/or presence is here referred to as 'tabling'.
5. Commercial organizations are not allowed any tabling presence in as far as they are selling or promoting the sale of any product or service.
6. Tabling activities that are not allowed include, but are not limited to:
 - a. Sales or marketing of any product or service;
 - b. Requests for donations;
 - c. Promotion of any for-profit business;
 - d. Promotion of any political party or candidate (but see Allowed political activities below);
 - e. Religious proselytizing;
 - f. Amplified announcements or music.

7. Any organization seeking such presence must make a new request for each event. New requests (from organizations who have never had or not recently had a presence) for tabling presence will be prioritized over requests from organizations which have had a recent and/or repeated presence at our FTRs, though timeliness of requests and other factors will also be considered.

8. Any table and/or structure will be no larger than 10' wide, 10' deep, and 10' high, unless pre-approved by this committee. Placement should not impede access to food vendors, view of performers, or pedestrian traffic, and should not otherwise interfere with attendee activities. A representative of this committee or the NPNA Board may ask an organization to relocate their structure in order to accommodate these objectives.

9. Allowed political activities - Political candidates or their representatives are welcome at our FTRs only under these conditions:
 - a. They may mingle and greet one-on-one or in small groups (i.e., no announcements or amplification);
 - b. They may share small promotional items, such as business cards, fliers, stickers, pins;
 - c. They may not share or display yard signs, banners, or other large objects;
 - d. They may not engage in tabling, or placement of signs or literature on any surfaces.
